

# TAKING ACTION TO INNOVATE HERE AND AROUND THE WORLD

At **Mission inclusion**, we support innovative community actions in 12 regions of Quebec and in 14 countries around the world! Our relationship with our allies, rooted in respect and kindness, allows us to sound out the terrain and find innovative solutions that promote the wellbeing and autonomy of hard-hit communities.

## In Québec

**In Quebec, we will combine our efforts to provide tools to isolated individuals, families, youth, and seniors.**

Credit : Le Filon

## Le Filon Lévis

This project allows the team to free up time to develop food security activities for the most socially and economically excluded. Our actions help reduce social inequalities and strengthen food autonomy.

Le Filon is an innovative organization that strengthens people's capacity for action and emancipation in order to create a democratic and associative life.

## La Piaule Drummondville

La Piaule allows a street worker to dedicate themselves to vulnerable and isolated seniors in Drummondville, by directing them to services that will help them reconnect with their community. This project is innovative because it brings together street workers with seniors in order to intervene and act positively with this isolated, marginalized and fragile population.

La Piaule has been in existence for nearly 40 years and this is the first time that such an initiative has been set up.

## Le PiaMP Montréal

This project provides a drop-in space for marginalized youth (15-25 year olds). This space allows youth to meet with youth workers. In addition, educational workshops, mobilization projects, artistic projects, and responses to respective needs are held.

Le PiaMP is the only living environment in Montreal dedicated to youth who exchange sexual services for any form of compensation. It is a space where young people come together to break isolation and build relationships, outside of an authoritarian setting.

# TAKING ACTION TO INNOVATE HERE AND AROUND THE WORLD

**Internationally**  
Internationally, we will stand together to support people whose situation has been weakened by the pandemic, affected by poverty, climate shocks and violence. Dialogue and solidarity will accompany each of our actions.

## **ATTOUS** Burkina Faso

ATTOUS participates in changing mentalities and fights against prejudices and sexist stereotypes in Burkinabé society. The organization is also committed to improving the living conditions of 330 young women, through the learning of non-traditional trades.

This innovative project addresses economic and professional inequalities. ATTOUS participates on the one hand in increasing the rate of integration of women in the labor market, and on the other hand in the accessibility to training and to the labor market through technical, financial, and material support.

## **PRO-RURAL** Bolivia

In Bolivia, the training and technical support offered to PRO-RURAL have allowed the development of several workshops for the production and repair of quality small agricultural tools. These tools are low cost and adapted to the agroecological techniques of the Altiplano, one of the highest inhabited regions in the world.

Several technological innovations have been made to mechanize the crops. The results are amazing: yields 3 to 4 times higher than national averages have been achieved, with more than 1,800 kg/hectare of quinoa (average 500 kg/hectare) and 3,000 kg/hectare (average 700 g/hectare).

## **Stairway** Philippines

This partner is a leader in the promotion and protection of children's rights. Through a network of more than 50 NGOs, Stairway professionally and creatively addresses the issue of child sexual exploitation and abuse.

The implementation of an online educational platform for children, young adults and parents is particularly innovative. The goal? To prevent sexual exploitation and abuse. Recently, Stairway launched "Dude, that's not cool", an online course for young people to learn and adopt the right attitudes on the Web.

**You are leveraging Mission inclusion. With your support, our innovative ideas become a reality! By making a donation today, you are giving us a sign of confidence and enabling us to protect thousands of lives. Thank you for your support!**
